

Destoner specification

Capacity: **50kg roasted coffee**
Efficiency: **10-25kg/5min (control)**

Destoner parameters:

- electric power supply 230V 50/60Hz
- on wheels
- regulated thrust by inventor
- made of stainless steel
- build-in neodymium magnet for capturing metal parts

The purification accuracy depends on the set capacity (set thrust).

Warranty: 1 year.
